JavaScript (ES6+) | TypeScript | React | Server Side Rendering | Next | React Query | Redux | Thunk | JWT | Webpack | Node | Express | REST APIs | Testing (Jest, RTL) | MySQL | PostgreSQL | MongoDB | AWS | Git | Postman | Selenium | Stripe | Figma | Google Analytics | Frontend | Backend | Full-Stack

PROFESSIONAL EXPERIENCE

Interad Corp. - Front End Developer; Toronto, ON

July 2022- Present

- Developed and maintained 14+ web applications for high-profile clients like RBC using React and Typescript.
- Implemented responsive and user friendly UI components utilizing CSS, SASS, Tailwind CSS and Bootstrap.
- Collaborated with Backend teams to integrate REST APIs ensuring seamless functionality.
- Conducted Unit and End-to-End testing to guarantee application stability and performance.
- Implemented Google Analytics on web pages, collect, prepare, and submit analysis reports.

RBC - Full Stack Developer, Contract Toronto, ON

November 2022- February 2023

Worked on developing an application for internal company use by the IT team. The front end was built using Next.js and Chakra UI, while the backend utilized Node.js, Express.js, and GraphQL. Test cases were written using Jest and RTL. Finally, the application was deployed on AWS.

Equifax -Junior QA Engineer, Contract; North York, ON

Oct 2021 - July 2022

- Understood specifications and requirements based on technical/client needs; created and maintained test documentation(s).
- Developed DAG, YML config and input files, uploaded them to GCP bucket and ran the tests via Airflow.
- Used Postman to test the given API for security and response accuracy by providing the required parameters.
- Wrote scripts to automate tasks to help save time for other important issues. Saved 20% of the time otherwise spent on those tasks.
- Kept track of the bugs by using management tools: Jira and its sub-component Zephyr.

Eva Solutions Pvt. Ltd - Fullstack Developer; Patiala, India

July 2015 - June 2019

- Built the User Interface using ReactJS while ensuring component reusability and responsiveness.
- Created REST APIs using ExpressJS and NodeJS from scratch to fetch and serve data to be displayed on the UI.
- Developed, merged and deployed the code in staging and production sites to ensure 24/7 availability.
- Designed and built database, SQL, or NoSQL, depending upon the type of data to be stored and relations to be built.
